

## The Pippin Advantage for Ion Torrent PGM and Proton Customers

### Pippin Prep Key Benefits:

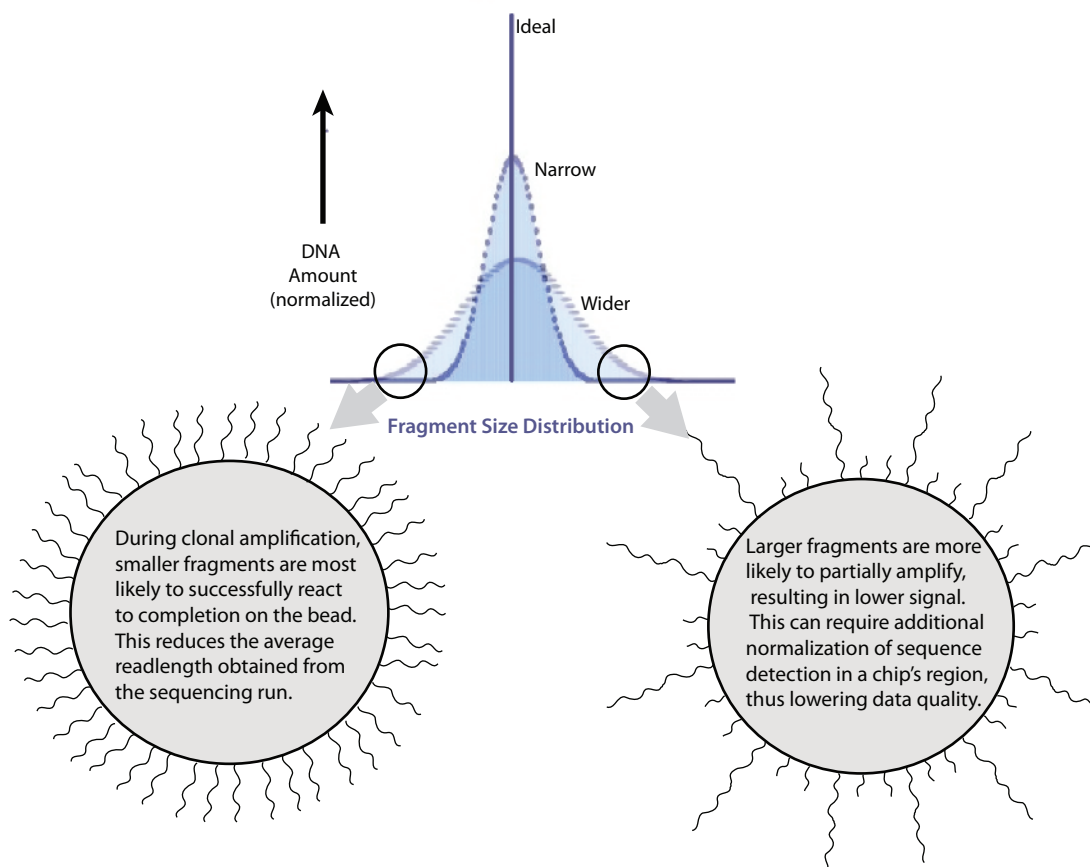

- Maximizes the amount of sequence collected from a run
- Improves the quality and consistency of data for optimal assemblies
- Streamlines workflow with a platform that requires minimal hands-on-time

### Key Features:

- Provides a **narrower size distribution** than other methods\*
- Selects an **accurate and reproducible** fraction, sample-to-sample

Pippin platform is an automated DNA size selection tool designed for use in sequencing sample prep. It replaces manual gel extraction, and has been shown to outperform other sizing methods for reproducibility, accuracy, and yield.
